MEMORANDUM FOR SEE DISTRIBUTION

SUBJECT: World War II (WWII) Facilities on Fort Hood

1. PURPOSE. Define policy for discontinued use of WWII facilities.
2. BACKGROUND. The goal is to demolish WWII facilities by FY17. Fort Hood's demolition strategy is designed to maximize centrally funded programs like the Facility Reduction and Military Construction, Army Programs. WWII facilities do not meet anti-terrorism and/or force protection requirements, are not energy efficient and are maintenance intensive. They offer little flexibility in providing space required for office, supply, storage, classroom, training area and information systems. Use of these inadequate facilities causes major disruption to daily command, control and operations of each unit, reducing mission capability and readiness.
3. POLICY. Management of WWII facilities will be adhered to as outlined below:
 - a. Vacated facilities will not be reassigned.
 - b. DPW will disconnect utilities immediately upon vacancy.
 - c. Garrison Directorates and Network Enterprise Center will be notified when the facility is vacated in order to remove Installation Property Book items and Local Area Network and/or Information Technology lines.
 - d. Occupied facilities will be minimally maintained to allow continued use until suitable facilities become available or facilities are constructed.
4. EXPIRATION. This Fort Hood command policy memorandum is effective immediately and will have a review date of not to exceed 18 months from the date it is signed.

MATTHEW G. ELLEDGE
COL, IN
Commanding
